HOT WHEELS 2017 OVERVIEW

The FIAA will be presenting a three-day vehicle fire investigation training seminar in Nisku, Alberta Canada. Keith Fowler and guest speakers will be providing the training for this hands-on seminar. Syndicates will be formed, and on Day 2 each syndicate will investigate one of the different vehicle scenarios. Each syndicate will present its origin and cause report on Day 3.

This course will include:

- How to determine the area of origin (examination of the degree of destruction, fire paths, fire patterns, etc.)
- Factors to consider when analyzing the area of origin
- Identifying combustible materials in the area of origin - their ignition points (i.e. oil, plastics, gasoline)
- Identifying ignition sources in the area of origin (i.e. electrical, friction, exhaust heat)
- Arson – “What to look for?”
- Recalls – “How to use them”
- Review of actual case histories
- Live electrical demonstration – how fuses, fusible links, relays etc. work (burning of wires, creating shorts, etc.)
- Examination of sample components from actual cases

Course Outline and Speakers Subject to Change
